

PPG Stag Medical Centre and Rose Court Surgery.

Chair's Report 2015

2015 saw many changes within the Practice, one of which made a significant impact on the way our PPG is viewed by the Practice. With the retirement of Chris Thompson and the early retirement of Tracey Ingram through ill health the Practice has made major changes. We all wished Tracy and Chris all the very best and thanked them for their contribution to the PPG since its inception.

The Practice management team is now substantive and there is a significant change to the way the Practice now manages its business. As a result of the appointment of Jean Toner as Practice Manager the PPG have a much more inclusive way of working with the Practice. We feel valued and are justifiably proud of the achievements we make within the Practice. This was demonstrated by the way the PPG helped out as ushers for the various Flu clinics held during the latter part of the year. The help was very much appreciated by the management team and the PPG felt they had made a difference to the workings to the Practice.

As Chair of our PPG I would like to thank you all for your continued support and considerable help during these changing times. I for one am extremely proud of the way we all work very hard to achieve the aims of supporting the patients within our Practice.

Jenny Drew

Chair

PPG Stag Medical Centre and Rose Court Surgery.
