Making a Complaint

As an organisation we endeavour to provide the best service possible, however if you are not happy with the care or treatment you have received you have the right to complain.

This information explains what to do if you have a complaint or concern about the service you have received in the surgery.

How can I complain?

We hope that most problems can be sorted out easily and quickly, often at the time they arise and with the person concerned. If your problem cannot be sorted out in this way and you wish to make a complaint, please let us know as soon as possible.

We have a duty of care to respect the confidentiality of all patients and should a complaint be made on behalf of another patient, depending on the nature of the complaint it may be necessary to obtain the patients consent.

Complaints should be made in writing. Please address any letters of complaint to the Management Team at the address given below. Your complaint will then be handled by a member of the management team depending on the nature of your complaint. This may be the Practice Manager, Clinical Manager or IT and Performance Manager. Alternatively you can ask for an appointment with a member of the management team in order to discuss your concerns.
